#### Final Action

I. Rejection of claims 1-3,5-21 under 35 U.S.C. 102(b) will not be maintained in light of amendment filed 4/16/03. Applicant replaced "injection button" by "valve".

Applicant's arguments with respect to claims 1-3,5-21 have been considered but are moot in view of the new ground(s) of rejection.

## Claim Rejection under 35 U.S.C. 102(b)

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-3,5-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukuda (US 4175678; 11/27/79). Fukuda teaches an intermittent aerosol dispensing device having a valve. In a claim to a device, a statement with respect to how the device is used has no patentable significance. The instant claims simply read on a device having a valve. The mention of injection time and application to skin and ratios have no patentable significance since the claim is drawn to the components which make up the device. In the instant claims the device only has one component and that component is a valve. See entire reference.

Application/Control Number: 10018515

Art Unit:

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
